The board met at 1o'clock, all of the members being present.

The following bids were opened for constructing a concrete culvert at the junction of the Woodside road and El Camino Real, at Redwood City:

H. B. Morey & Son, $757; time 12 days; extra concrete; $10 per yard.

C. C. Benson, $830; 20 days; extra concrete, $9.50.

On motion of Blackburn, seconded by Casey, the contract was awarded to M[illegible]ey & Son.

A comm[illegible]ication was received from the auditor stating that claim 5131 on the General fund amounting to $15, for the services of a motorcycle officer at Halfmoon Bay during the last chamorita could not be paid.

Francis stated that the bill had escaped his notice as he had intended to pay it out of his own fund. At his request the claim was returned to him to be settled as stated.

On motion of Casey, seconded by Brown, the auditor was permitted to employ clerical help for 12 days at $2.50 per day to add the delinquency charges to the assessment rolls.

George C. Ross addressed the board in reference to Ordinance 245, regarding the establishment of crematories in the county, passed in June of last year, and asked that it be repealed. The ordinance which permits but one crematory in each township has created a monopoly of this business and is therefor invalid. Mr. Ross represented Mount Olivet cemetery which association desired to install a crematory.

Brown and McEvoy took the same view of the matter and Brown moved the repeal of the ordinance, which was seconded by McEvoy.

Casey, who was instrumental in the passage of the ordinance spoke in its defense, taking the ground that it was framed to prevent the filling up of the First township with such institutions which had been barred out of San Francisco. He knew of three other burial societies in his township that also desired to erect crematories.

Mr. Ross said that the law placed it within the power of the board to prohibit the maintenance of crematories, but that it could not allow one to do business and refuse others a like privilege.

Blackburn said that he desired time to look into the crematory business and moved that the matter go over one month. He was seconded by Casey and the motion carried, McEvoy and Brown voting "no."

Mr. Ross stated that his clients would probably take the matter into the courts, in which event he had no doubt that the ordinance would be declared invalid.

Superintendent of Schools Cloud stated that when the site for one of the Jefferson schools at Visto Grande had been purchased, the property was bounded on the north by Ransome street which thoroughfare it was intended to use as a playground. Since the erection of the school building the street has been closed and part of it sold to private individuals. He wanted to know the status of the matter and asked that it be investigated. The subject was referred to the district attorney on motion of Casey, seconded by Blackburn.

Attorney Kincaid, on behalf of C. F. Pierce, submitted a resolution ordering the payment of $1522.60 to Mr. Pierce in accordance with a judgment of the Superior Court. To the claim is added interest for one year at 7 percent, making a total of $1636. The claim was for roadwork in the Third road district.

Mr. Swart explained that the judgment was taken on default during the term of his predecessor and he had been unable to have the judgment set aside.

The resolution was adopted on motion of Brown, seconded by Francis, the claim to be paid out of the General fund.

McEvoy then asked that the sum of $485 be transferred from his fund to the General fund, which amount represented the work done by Pierce. The transfer was made on motion of Brown, seconded by Francis.

Chairman McEvoy reported that he had had a suitable building erected for the use of the sheriff in the jail yard at a cost of $288.

Attorney Kincaid stated that the Halfmoon Bay Light and Power Company, whose application for a franchise to maintain its poles and wires in the First township was before the board, would have to make other arrangements to secure its power. He asked that it be given permission to extend its line to the San Francisco boundary pending a new application for a franchise.

It was understood that the company will confer with Supervisor Casey on the subject and no action was taken.

Brown moved that bids be called for supplying the county with galvanized culvert pipe in sizes from 8 to 84 inches, to be supplied in such quantities as are needed and the contract to remain in force for one year. The motion was seconded by McEvoy and carried and the surveyor directed to prepare the necessary specifications.

Casey referred to the Thavonet Secret Service Company's claim for $279.75 for work done under the direction of Mr. Bullock, which claim had been favorably voted upon last year by the board. Personally he had been wrongly informed regarding the character of the charge. He moved that the board now rescind its action. He was seconded by Francis and the motion carried.

Superintendent Ford of the county hospital stated that Mrs. Julia McLean had removed her father, a county indigent to San Jose. He was directed to strike McLean's name from the county's list.

Surveyor Neuman asked for additional office room. The matter was referred to McEvoy on motion of Blackburn, seconded by Casey.

The claim of the A. L. Young Machine Company for $2497 for culvert pipe supplied to the Fifth road district was taken up.

Mr. Young testified under oath to the character of the material furnished and contended that the charge was a fair one.

F. M. Doak of the Doak Steel Company stated under oath that he would furnish the same material at a charge of $1852.15. His culvert pipe had been tested by experts and found noncorrosive. A letter to this effect was read from Geo. A. Merrill, mayor of Redwood City.

Blackburn moved that the Young Company's bill be paid and Brown seconded the motion, taking the position that when the several members had been authorized to purchase such quantities of culvert pipe as they needed there was nothing said about the brand they should buy or the price. He believed that the Young Company could collect its claim by suit and he wanted to avoid litigation.

McEvoy agreed that no price had been specified but it still was the duty of each member to keep in mind the interest of the taxpayers in making such purchases.

Francis and Casey favored the payment of the claim at the figure quoted by Doak.

A vote was taken on Blackburn's motion and it was lost, Casey, McEvoy and Francis voting in the negative.

The following reports were received from the motorcycle patrolmen:

T. A. Martenstein—For one month to December 18th. Seven arrests, 6 convictions; fines $75.

M. F. rown—To December 18th, Eleven arrests, 18 convictions; fines $95.

George Lowans—For December. Eight arrests, 7 convictions; fines $90.

The Redwood City Chapter of the National Red Cross announces that $100 was made by their sales of the Christmas seals. Much help was given by the schools, both grammar and high, by the various fraternal orders and by merchants who placed the seals on sale in their stores.

President Sun of the New Chinese Republicd not only speaks English but he has been in this country often enough to talk United States.

If you haven't already made a resolution to give your patronage to your home merchant it is none too late yet. Good resolutions are always in order.

Senator La Follette advised Democrats to join his progressive. The Senator seems to be wise enough not tell why he does not advise insurgents to joinwith the Democrats.

TIME TO BEGIN WORK.

The suggestion of Chairman Merrill at the last meeting of the City Council for the formation of a park commission seems to be a step in the right direction. It is high tme some effective steps were taken to add to the appearance of the city and to make the place attractive to home seakers. In no way can this be effected with greater economy of cost than in the systematic bordering of the public streets with rows of attractive trees.

It is to be hoped Mayor Merrill will have no difficulty in the selection of the members of the proposed commission, and there is no reason why he should. Among the residents of the city there are certainly a number of people well versed in this important subject and who can well afford to devote a portion of their time and energy to the work of beautifying the city.

REMINISCENCES OF OUR PIONEER DAYS

Gleanings From the Records Left By Men Who Laid the Foundation of Our County.

On the 27th of July, 1888, George Wentworth, another of the pioneer settlers of San Mateo county, gave up life's fitful struggle and passed to his final rest in the great beyond. While not asuccessful man in the sense of acquiring great wealth, George Wentworth was a successful man in the truer sense of acquiring and holding the esteem and love of his fellow men, and passed tohis rest leaving a heritage of good example worthy of imitation, both as a citizen and a public official. A native of New Hampshire, 35 of the 57 years of his lifetime were spent in San Mateo county. Coming here a mere youth, his first employment was with Miller & Lux, for whom he worked as a cattle herder. After following this occupation for some time he embarked in the cattle raising business on his own account on the Dennis Martin place. In the early sixties he purchased an interest in the Pioneer Stables of this city, and continued in that business until 1875, when he again returned to farming, an occupation which he continued for the remainder of his life, In 1869 he was elected a member of the Board of Supervisors as a Republican, serving one term. In 1882 he again became a member of the board, being appointed by the Governor to fill a vacancy caused by the death of John Crowley. Active in social and fraternal life, he was a prominent member of Bay View Lodge of Odd Fellows and his remains were consigned to their last resting place in Union Cemetery with the ceremonies of that Order.

Monday, September 9th, was made a memorable day in the history of Redwood City, marking the first formal steps in the opening of what has since become one of the notable residential districts of a city of handsome and attractive residences. On that day was laid the corner stone of what, but for the destruction of the "big quake" would long have been one of the show features of the city—the magnificent stone arch to mark the entrance to Wellesley Park. The ceremony was quite elaborate, being followed by a pretentious literary program, rendered in the presence of a considerable gathering of guests, all of whom were entertained afterwards at a lunch spread under themagnificent oaks growing on the place. As designed the main gateway was 84 feet wide, ornamented with iron trimmings and each arch surmounted by the bronze figure of a deer.

After being without a permanently settled pastor for nearly nine years, the members of the Congregational church of this city found a man—not at the time a minister of the gospel—whom they believed could best fulfill the duties of the charge in the person of L. D. Rathbone, and at the request of the members of the church was ordained to the ministry of God in the church he was first to serve on the 27th of September 1888, after an examination by an Eccleasiastical Council called for that purpose. The ordination service was held in the church in the evening and was attended by a large congregation, the services being conducted by Rev. J. W. Dwinell, Rev. J. K. McLean and Rev, George Mooar.

CITY TO ENCOURAGE PLANTING OF TREES

Council Authorizes Appointment of Honorary Board of Commissioners

For the first time in several weeks a full board was present at the meeting of the city council Tuesday evening, Truste Brown having sufficiently recovered from his recent illness to feel it prudent to risk the evening air. Mr. Brown was given a hearty welcome by his fellow members and the regular visitors, who congratulated him on his recovery.

Members of the 17th district improvement club were on hand with additional evidence of the sincerity of their desires for better streets and proof of their desire to take the lead in reasonable improvement.

This time Geo. W. Lovie, presented a petition from the owners of property in that district urging the council to take action at the earliest possibble time to submit to the voters of the city the question of paving the intersections of streets at the cost of the city. The petition was signed by 38 owners of property, representing a frontage of 7533 feet, almost the entire property of the district. In reply to a question by Chairman Merrill, Mr. Lovie stated that but one property owner of district had declined to sign the petition, and even this one assured him that he was heartily in accord with the general ideas of the petition. It was also stated that it had been the intention of the improvement club to circulate the petition among the residents of districts 15 and 16 in time for presentation at this meet- but that the time had not been sufficient for that purpose. The trustees were assured that this would be done during the coming two weeks, so that at the next meeting of the council the general feeling of the people of the city on the subject would be apparent.

In addition to asking that the question of issuing bonds for the payment of the cost of street intersections be submitted to the people the petition presents a general plan for the improvement of the streets which can be obtained at anestimated cost not to exceed 7 cents per square foot. It is also urged that the work be done by a system of private contracts, thus avoiding much delay and extracost. Trustee Hynding urged that action in the matter be taken at as early a date as possible, stating that the petition had been prepared at his suggestion with a view of saving time.

While cautioning care in the observance of legal methods of procedure Chairman Merrill expressed hearty support of the plan. He stated that investigation had convinced him that the plan of payment of the cost of street intersections by the municipality was fast becoming the popular one, having been adopted by many of the most advanced cities. He had also become convinced that it was the better plan, both as a matter of public policy and justice to the owners of property. That the general public derived a considerable benefit from the improvement of the streets of any section of the city could not be denied, and to secure general improvement which was desired it was necessary that the owners of property be given some encouragement. Discussion indicated that the plan met with the hearty approval of all of the trustees and it was resolved to give the subject consideration in committee of the whole in order to be ready for definite action at the next meeting.

Osborne & Kidd, the expert accountants who had been selected to make examination of the books of the city officials, submitted a report showing that the accounts of all officials had been found correct and complimented the officials on their efficiency.

Chairman Merrill of the special committee on furniture for the new city hall reported that several bids had been received for furniture and hardware but that no action looking to a letting of contracts had yet been taken.

The question of a systematic planting of ornamental trees upon the streets of the city was again brought up by Chairman Merrill with the suggestion for the appointment of a park commission to be composed of public spirited citizens who might be induced to devote a portion of their time to planning for this important work. Mr. Merrill urged that some concerted action should be taken without delay in order that the city should present the best possible appearance during the time of the Panama-Pacific Exposition. After a number of suggestions, one of which was that the commission be composed in part of women, on motion of Trustee Hynding, Chairman Merrill was given authority to appoint at his discretion a park commission who shall be given authority over a general plan of tree planting, with the understanding that if necessary the city will bbear a portion of the texpense of securing trees for planting.

Street Superintendent Dickey reported that during the past week he had received a number of requests for the laying of crossings, which in many instances were seriously needed as a matter of public convenience. This at first elecited a vigorous protest fromT rustee Hynding, who made the objection that the people had not shown sufficient readiness to encourage the work of street improvement and were not justly entitled to this convenience at the expense of the city. When reminded that at this time there seemed a general desire to provide better strets he withdrew his objection and Dickey was given authority to provide such crossngis as in his judgment were really needed.

Trustee Hynding entered complaint of the disreputable condition of many of the sidewalks, especially those on the easterly side of the city. This brought forth a general kick from the trustees and resulted in an order to Street Superintendent Dickey to report the names of those who have failed to comply with orders to improve their walks and a general resolve to be more strict in the future.

Trustee Sampson called attention to the frequent obstruction of street crossings by trains, with the result that warning signs were ordered placed at principal crossings and the marshal instructed to make arrests if these were not heeded.

After a year of gratuitous service, Dr. Ross, the city health officer is to receiveaslight renumeration for his services, the salary of that office having been fixed by the council at $25 permonth for the present year. This action was taken at the suggestion of Trustee Sampson, who called attention to the vast amount of work performed by Dr. Ross during the past year, during which the Doctor has not only devoted his time without hope of reward but had borne the incidental expenses of the canduct of the office. In fixing the amount of the salary it was evident that the members of the council did not consider the amount commensurate with the demands of the position but were governed by the condition of the finances under their control. Much praise was given Dr. Ross for the splendid services rendered the city in the past.

The franchise for the proprosed street railway was given another layover for two weeks.

Contractor McLean was allowed an extension of time until the end of the present month in which to complete his contract for the erection of the city hall building.

Miss Rowen Gillespie, a graduate of the local high school and the charming daughter of Mr. and Mrs. J. W. Gillespie of Roosevelt Avenue, became the bride of Harry F. Humphrey, a Stanford graduate, at a pretty wedding in the Playmouth Congregational Church in San Francisco at 9:30 o'clock Tuesday morning. The ceremony was preformed by Rev. John Rodgers and only the relatives of the contracting couple were present. Immediately after the weeding, the bride and groom departed for Los Angeles, where Humphery will take up the contractiug building business with his father.

Mrs. Humphrey was graduated from the Sequoia High school with the class of 1907. She graduated from the San Jose Normal school in 1909 and since that time has been teaching in the Fresno schools. Tempest und Sunshine.

"Tempest and Sunshine" from Mary J. Holmes' popular novel of the same name is sure to appeal to even the sophisticated play goers. A picture of the langourous, romtic life of the south before the war. The principal characters, Julia and Fanny Middleton (Tempest and Sunshine) afford the chief interest in the play. The former, a capricious self-willed daughter, the latter winsome, loving and magnetic. The trials and triumphs of these two girls are carried through the play, but at the end of all, love survives and all are "happy ever afterwards." To be seen at the Albambra Saturday, January 13.

Services at the M. E. church tomorrow as usual. Sunday school at 10 a. m.; preaching at 11 a. m. and 7:30 p. m. An opportunity will be given for members to unite with the church at both services.

All women who register between now and March will have to give their ages. After that time the law eliminating the ages of men and women will be in effect and they will only swear that their age is over 21 years. It is safe to say that but few women will register before that time.

With the opening of the new year "Spring Valley" station on the Ocean Shore railway ceased to be and now the brakeman sings out "Daly City" when the train reaches that enterprising municipality. With the return of Ambassador and Mrs. Whitelaw Reid from the east, which is expected by the latter part of the present month, it seems assured that work will be commenced on the erection of the new Red Cross Hospital building at San Mateo. When Mrs. Reid was here eighteen months ago she authorized the construction of a new hospital building, but gave her consent with the stipulation that it should be constructed only on a site adjacent to the present hospital. This site has been obtained and plans for the new building for the new building prepared by Architect Lewis P. Hobart. The building will be a modern three-story reinforced concrete structure and will cost $100,000.

Joseph Steffel, a resident of San Bruno, met with a ratherhard experience in San Francisco last Sunday morning. While in the outside portions of the district the vote was in favor of the bonds, the vote of the City of San Mateo was sufficiently strong against the measure to defeat the issue. Evidently a full vote was not brought out, as the total was but 428, of which 264 was in favor of the bonds and 164 against, failing of the necessary two-thirds. As a consequence of the defeat of the bonds the people of Burlingame are again threatening to withdraw from the joint district and set up a district of their own. As an offset to this proposal, the trustees are now discussing the proposal to again submit the question is issuing bonds for a school at Burlingame only, reducing the issue to $50,000.

TO FILE CHARGES AGAINST SOUTHERN PACIFIC CO.

Attorney Seth Mann, who has been retained by the San Mateo County Development Association to conduct its fight against the Southern Pacific Railway for lower transportation rates down the peninsula, announced to the board of governors Tuesday night that he would file his complaint with the State Railway Commission within the next two weeks.

He asserts he has worked up a very strong case. He charges the Southern Pacific with discrimination against San Mateo county in favor of the transbay cities, and has compiled a volume of statistics purporting to show that passenger rates in Alameda county are much lower than to points in San Mateo county equally distant from San Francisco.

NEW FERRY BOAT FOR SOUTHERN PACIFIC

The Southern Pacific will launch a new ferry steamer shortly after the first of the year, making the third that the company has constructed in the last twelve months. The new vessel will be christened the Alameda. The boat is being constructed in anticipation of increased traffic. It is especially designed as part of a fleet that will be added to the company's equipment before the opening of the exposition in 1915.

The Alameda is being constructed at the company's shipyard at Oakland. The hull is to be of steel and the superstructure frame. The new vessel is not quite as large as the Berkeley, but it will have greater speed. The Alameda will have two independent engines of 1,200 horsepower each, located on either side of the boat, one engine for each paddle wheel. The thoroughfare on the deck will be located in the center of the steamer. There will be a seating capacity for 2,052 persons. The interior finish will be in walnut and teakwood.

There will be four 18 foot lifeboats, constructed of galvanized iron, located on each end of the steamer.

Miss Margaret Kreiss, who attended her, was also dressed in white. Wm. Farrell, the bridegroom's cousin acted as best man. Both Mr. Mollison and his bride are well known young people and are popular with a host of friends who extend their good wishes. The young couple will begin housekeeping in a cozy home on Heller street.

It is now ready for working and needs only the machinery to make the property productive. Assay reports from Mexico show the ore to contain from $20 gold to $3000 silver per ton. Mr. Liguori has brought some samples with him which he will have assayed in San Frnacisco.

Woodside Resident Sued.

Frederick W. Bradley, a mining broker, Tuesday filed suit in the Superior Court of San Francisco against J. A. Folger to recover $37,337, for which sum he declares Folger is liable as a stockholder in the Ocean Shore Railway. Bradley says he is the owner of 164 bonds of the Ocean Shore, which he bought in the open market. He alleges that Folger owns 11,943 shares of stock in the road and is liable for the company's indebtedness to the extent of the sum mentioned.
